

Gods Amazing Seal 777 Part 1

Over the years of walking with Jesus I have looked into God's amazing seal upon mankind and all living creatures. I'd like to share a little with you in hope of doing so I may assist you in growing a little closer to God through Jesus Christ our Lord. The number 7 has been called the perfect number, it is in fact the SEAL of God upon his creative work. Until later years this fact seems to have almost evaded attention, then an amazing discovery was made. Hidden beneath the surface of the original Greek and Hebrew text is that same seal, not only in a few texts but literally throughout the Bible, stamping it as the indisputable word of God.

It was soon discovered that both the Bible and creation bore similar identification marks, just as surely as given papers from a certain mill bears a watermark, so what are the watermark seals of God's handiwork? God's dealings with man are marked with the multiple of seven's, each man's physiology is constructed on the law of seven. Did you know that the development of the human embryo is in the exact period of sevens (28 days or 4×7), ask your doctor to explain it. Then the full birth time of a child is 280 days or 40×7 . In Genesis 2:7 we read "and God formed man of the dust of the ground"... Science has had to acknowledge that the human body consists of the same 14 elements as the ground, dust we walk on (2×7). Medical science tells us today the human body is renewed in every cell every seven years, also that the heart beats slower on the seventh day (the day of rest), and in certain illnesses and diseases the critical days are always the 7th, 14th days and 21st days for healing and so on.

The light from the sun is made up of 7 distinct colours, e.g. Red, Orange, Yellow, Green, Blue, Indigo and Violet. The rainbow is a demonstration of the light split into seven colours, now is that perfect design or just accidental? While we are in the air so to speak take a look at our nearest neighbour - the Moon. The earth is 49 times larger than the moon (7×7) and the moon completes its journey around the earth on the 28th Day (4×7) which is exactly in keeping with the development of the human embryo. Hmmmmm, God's seal on creation!

God Bless you. From Aussie, Bikers 4 Christ Nth QLD Branch
