

What does your life Represent?

What does it mean to wear patches or sow ons for Jesus as a Christian biker or motor cyclist? These are just some thoughts. It means that we are prepared to stand up for Jesus on the highway of life; to help others and to be a servant to all on the highway of life. If we wear something on our back, we need to think about our behaviour out on the highway of life because we don't want to give the **LORD JESUS CHRIST** a bad name as his follower.

The lord often pulls me up with the way I ride and I wear the Christian flag and I have been wearing this now for two years. I was recently looking at a particular Christian riders motorcycle club and they no longer exist after 33 years, this brought tears to my eyes, this was in Canada. This is what I like about wearing the Christian flag that belongs to us all as Christians world wide and it is used world wide too.

It has been a round since 1908 and Christians can wear it till the day they go home to be with the lord. The Christian flag is for us all, that we stand united in our faith and love for man kind just as Jesus did. Here in Australia I have some more thoughts about Christian Bikers, the first Christian fellows I knew were "The Ferrills" and the second was the "Tribe of Judah" and then the Christian Motorcyclists Association (CMA). I have learnt about the Christian flag and I think this is the best sow on that I have ever worn because it repents the LORD JESUS CHRIST and that is who I love most all!

I want to encourage you. I went down a club house after my bad attitude there last week! I just walked in had a drink and a yarn. Well I guess I didn't burn any bridges like I thought I would, like to thank the lord for that! It's not easy going in to these places by yourself and especially if you think that you done the wrong thing but the lord is gracious with us in serving him I just want to share Jesus with them.

There was a person with a ute with "Jesus is dead" on it, someone said have look at the back of the ute the person that he wasn't having a go at me. I said to my self here is someone in the ute that on is the run from the Lord, I could be wrong. Some times its hard to keep doing what I am doing we read in the gospels a man goes to build a house will he not count the cost to start with? If it doesn't work out there is a mess and will be talked all about that which was started was not finished!

Some 3 years ago I started doing ministry with the Lord and now I have a hard time doing it, but I am bout counting the cost I don't want to be remembered for not finishing what was started. As the body of Christ we need to complete our task that the Lord has given us we all have a ministry. Jesus died for us and we asked him into our lives we became minister of his gospel whether we like it or not. We have the great commission by Jesus to go in the world by the power of the Holy Sprit and to trust God! As the Body of Christ let's pick up our cross and serve the Lord. Remember you are a minister of the gospel and it takes "**you**" to go with the love of Jesus and thank the Lord that your name is written in the lambs book of life. There is some think that you might consider brothers and sisters, help our brother with this newsletter. Build each other up in our most holy faith, we are the body of Christ to love and support each other as Christians, we are not a one man band! The apostle Paul said that we are the body and we need each other to fulfil Gods plan on the earth. Help Roscoe to put out a great newsletter to be shared with all in Bikers 4 Christ. **Wayne** - your brother in Christ in Mackay.
